

AXIS 0FLX6

6dBi flexible omni-directional antenna for RF transmit applications.

WAVE CENTRAL

Key features:

- 5.8 GHz frequency band (other bands available)
- 6dBi gain
- 27° elevation beamwidth
- 360° azimuth beamwidth
- Vertical polarization
- Compact cross-section
- 14dB return loss, typical (1.5 to 1 VSWR)
- Type N male connector
- 11/16" X 10 3/8" physical
- Lightweight fiberglass housing
- Stainless steel spring with rubberized shroud
- Rugged design resists shock and vibration
